Sir:

Prior to the examination of the above-referenced application and in response to the U.S. Patent Office Notice mailed November 15, 2002, entry of the following amendment is respectfully requested:

**In the Specification**

Please replace the paragraph on page 9, lines 24-27, with the following paragraph:

Figure 2 (Panel A), which illustrates the target sequence (SEQ ID NO:1) for the targeting construct, shows the location and extent of the disrupted portion of the melanocortin-3 receptor genes, as well as the nucleotide sequences flanking the Neo<sup>r</sup> insert in the targeting construct. Figure 2 (Panel B) shows the sequences identified as SEQ ID NO:3 and SEQ ID NO:4, which were used as the targeting arms (homologous sequences) in the melanocortin-3 receptor targeting construct.--

**In the Drawings**

Please replace Figure 2A in the application with the enclosed new Figure 2A. A marked-up copy of Figure 2A is also enclosed, with corrections indicated in red.
